CONNECT WITH TODAY'S MOBILE CONSUMERS

Use QR Codes so your customers can access information, coupons, offers and promotions immediately on their smartphones, when they have you in mind, are at your premises or want to act!

QR Codes are similar to a barcode with one big difference, a QR Code can hold and share huge information and cause actions such as a Facebook Like.

You can link the QR Code to more information, mobile websites, downloadable coupons, activate phone functions and more!
